TECHNICAL PROJECTS

LIVE STREAM STUDIO BOOKING

Jan 2022

Bootstrap, Django

- Full-Stack app to book Live stream studio and manage bookings.
- Includes features like Automated mails on form submissions and on rejecting bookings, Master-Manager Admin hierarchies etc.
- It is currently being used by Studio manager at WKC, Mangalore.

STUDY RESOURCES WEBSITE

May 2021

HTML, CSS, Javascript

- Developed a complete responsive website based on UI trend Glassmorphism.
- Contains Notes, Textbooks, Software Installation Files, Video Tutorials and pretty much everything needed for B.E.
- Has helped over 200+ college students.

MAKEMEAFFORD

Feb 2022

Nextjs, Prisma, PostgreSQL, Tailwind

- Full stack Travel budget planner built at Hackverse 3.0, 24 hr Hackathon by NITK Surathkal.
- Aimed at travellers to find cheapest hotels and stayhomes in a destination they select. It uses Apify's Gmap crawler to fetch data.

HOSTEL WEBSITE

Bootstrap, Django

- A Team project of dynamic website built as a Tribute to TVM Sir and to share WKC Hostel Experiences..
- Contains Gallery, Live experience sharing section and more.
